**Vacuum Steam Autoclave Medical  
Dental Autoclave Sterilizer+Printer**

## Product Features

- 01 Automatic Steam Sterilizer is a precision instrument specializing in the operation occasion in need of simple, fast and efficient sterilization by the doctor or his/her assistants, and the doctor shall take the responsibility for such work.
- 02 The sterilizer adopt microprocessor to enable intelligent control, which make easy to operate. Fully automated control, dynamic parameters and status display. Automatic fault diagnosis, over-temperature, over-pressure auto-protection to ensure the reliability of sterilization and disinfection.
- 03 The accessories of Sterilization include: Sterilization Chamber, Door unit, Insulation unit, Pipe system, Safety valve, Control system, Storage tanks, waste water tank, Steam generator and so on.
- 04 3 time pulsating vacuum make less residual air in chamber to Ensure better sterilization effect.
- 05 LCD screen show all sterilization data, which ensure better control of the sterilization process.
- 06 Safety valve installed in sterilizer, when pressure beyond 0.27Mpa. The balance pressure can be released by safety valve to ensure the operate safety.
- 07 The instrument have self-protect feature. When water tank or drainage water tank is full, the sterilization will complete pending sterilization in case the implementation of sterilization procedures, But the machine can not start to next operation unless add water or drainage. There will be buzzer to remind users to add water or drainage.
- 08 This product can be applied in the tooth device, operation device, Sanitary, Material and other heat-resisting articles existing in the Dept. of Stomatology, Ophthalmology Surgery and lab.

### Parameter

- Disinfection methods: three times pulsation vacuum high temperature sterilization
- Inner chamber of the Sterilizer: 23L: 250mm X 450mm
- Voltage: 110V/60Hz,220v 50hz both available, we will ship according to different location
- Power: 2300w
- Sterilization (Pressure/Temperature):
  - 90~130KPa/121°C (standard atmospheric pressure)
  - 20~230KPa/134°C (standard atmospheric pressure)
- Operating panel: push-button operation + LCD panel
- Panel material: high temperature matte anti-skid material
- Body material: 304 stainless steel inner liner

Volume	12L
Chamber Size	200mm X 360mm
Display	LCD
Product Size	560*450*410 mm
N.W/G.W	45/49 KG
Printer	Optional

Volume	18L
Chamber Size	250mm X 350mm
Display	LCD
Product Size	560*450*410 mm
N.W/G.W	48/50 KG
Printer	Optional

Volume	23L
Chamber Size	250mm X 450mm
Display	LCD
Product Size	560*450*410 mm
N.W/G.W	50/55 KG
Printer	Optional
