Oxygen Generator System

# Oxygen Generator System

Furix innovative oxygen generating system is designed for hospitals and clinics with 5-100 beds. The system includes PSA oxygen generator, buffer tank, booster pump, high pressure oxygen compressor, etc. It represents a higher medical standard and true sense of innovation.

## 01 Features

- It can be installed anywhere without site requirements.
- Low noise, it can be used in ICU and operation rooms.
- It offers an economic, reliable and safe alternative to traditional oxygen system.
- The design is made for 24/7 operation.
- It is equipped with automatic start&stop function, enabling the system to start and stop automatically.

## 01 Application

- For hospital with 5-100 beds.
- For anaesthesia machine and ventilator in operating room and ICU.
- For high pressure cylinder filling plant.
